# Utilities and materials are 5% of the portfolio and 61% of its financed emissions

# Escalation runs through the 2027 proxy season, with a vote decision in May

---

# The committee is asked to ratify the shortlist and the escalation timetable

- Financed emissions are down 18%, but eight holdings carry most of the remaining gap to 2030
- Three Tier 4 holdings show targets without the capital plans to reach them
- Escalation to stage 2 starts in November; vote decisions follow in May 2027
- Divestment is not proposed now; it is reviewed if plans stall by March
